

Fellow Republicans,

Thank you for attending and participating in Minnesota's Republican Caucus.

The results are in! 20 years of DFL leadership has led to out-of-control crime, billions of dollars of fraud, and unprecedented civil unrest and rioting on our streets. Ask yourself – when was the last time Minnesota was on the national news for something positive? Like you and most other Minnesotans, I'm tired of it and ready to move on.

There is some good news: the cavalry is coming and our campaign is leading the charge!

My life story is one of infinite challenges and obstacles. I grew up in poverty with my divorced-mother in Harlem and later with my father in a trailer in Oklahoma. I worked full-time delivering pizzas to put myself through college. Later, I served as an Artillery officer in the U.S. Army. I worked hard for the opportunity to live the American Dream. No excuses, just hard work and the belief that the United States is the greatest country in the history of the world.

As Republicans, we don't have to downplay our conservative values of protecting the unborn, defending our 2nd Amendment rights and reigning in the wasteful spending that has destroyed our state. Instead, we have to ask Minnesotans if they are tired of the dangerous path the DFL has led us down and present our own plans to SAVE Minnesota. That's why I'm running on the following three basic points that resonate strongly with **swing voters** which are critical for our success.

Economic Development - Cut personal and corporate taxes so that we lower the cost of living so that Minnesotans can live the American Dream.

Secure the Twin Cities: Hire 400 State Law Enforce Officers for deployment in Minneapolis and St. Paul. Support our policing efforts to reign in criminals and repeat criminals

Education - Work towards efforts to get academic excellence and discipline restored into our public schools. Support school choice so that dollars follow the student. Parents are the primary decision makers in their children's education. Get biological boys out of girls sports.

My wife Sheila and I have been married 40 years. We homeschooled our children from K-12. Our Christian faith is real for me and my family. We love the people of this state. But it's no secret that we need to turn things around for our future generations.

My friends, we have the opportunity of a lifetime to do just that!

Like President Trump, our state needs to bring in someone with a business background like mine to clean out the fraudsters, return our schools to academic excellence and create a thriving, business-friendly economy. If we keep doing what we've done and running career politicians and the political insiders, we'll lose again. As a political outsider, I am providing a vision and path out of the darkness we are in.

Today, I humbly ask for your support. God Bless you and the United States of America.

Kendall Qualls
